Former Captain and Latter Manager of Academy Football Team-Norwich Expert Enters Pool Tourney

JACK GALLIVAN.

Both the rivals for leadership were stars in their positions, Noyes as half-back and Gallivan at end, both making the All-Interscholastic sleven. Both are also shining lights on the baseball field, Gallivan being a pitcher and Noyes is the captain of the Academy nine this year. nine this year.

CAN INDIAN RUNNER

HOLD THE ENGLISHMAN? Shrubb May Run Longboat Off His Feet in First Ten Miles.

Can Tom Longboat defeat Alfred Shrubb at the Marathon distance? Sporting men are anxiously waiting to have this question answered when these great long distance runners meet in Madison Square Garden on Jan. 25. They have been matched to travel be They have been matched to travel 26 miles and 3% yards, and speculation is rife as to the result. Shrubb's wonderful running in the 12-mile relay race in New York last Saturday night convinced the experts that when Longboat tackles him records will be smashed in wholesale style.

C. L. I. Captains.

Two captains of athletic teams were elected this week at the Connecticut Literary institute at Suffield. They are George K. Vernon of Rainbow as football captain and James Kenealy of Stamford as baseball captain.

A compromise agreed upon by the members of the Academy football team at a meeting held Tuesday afternoon after achool settled the choice of manager and captain for next year, and Jackie Gallivan, the star end, was chosen captain, with Joe orth as manager.

Ever since the fall there has been a deadlock over filling these two offices, the rival factions commanding an equal number of votes, one side supporting number of votes, one side supporting the first 12 miles and the latter is able to gain a lap it is generally believed that Longboat will suffer a defeat, for Shrubb will doubtless show enough endurance in the

advantage. Longboat's two victories over Dor-ando have caused him to be regarded as a high class long distance man, but the experts say that both Dorando and Hayes have been overrated and that neither of them would stand a ghost of a chance in a Marathon race with Shrubb. While the Englishman that made a specialty of 5, 10 and 15 mile races, he has traveled longer distances and its credited with some fast time for

This achievement, therefore, was used as an argument that Shrubt would run Longboat off his feet in 10 miles and that he would surely win the coming race.

win the coming race.

Longboat watched the Englishman's performance with particular interest. He had never seen Shrubb at his best He had never seen Shrubb at his best before and remarked after the race that he had no idea the Briton was so good." The Indian, however, expressed perfect confidence in his ability to defeat Shrubb, explaining that he did not believe he could stick the 25 miles. SPOTTY AND FITFUL SELLING. Disposition to Take Stocks at Concessions to Cover Shorts.

New York, Jan. 12,-Selling pressure ntinued in evidence in stock trans actions today, but it was in a spotty and fitful way. There was no such dis-urbing special factor as the break in turbing special factor as the break in the Eries yesterday and the slump in other stocks at various times last week. Moreover, E. H. Harriman appeared at his office for the first time since before the Christmas holidays and thereby put an end to the occupation of bearish operators who had been disseminating rumors of his serious illness in efforts to depress prices. The agreement of the Turkish government to accept the offer made by Austria-Hungary for an indemnity for the annexation of Bosnia and Herzegovina was accepted as a definite removal of one deep-seated cause of unsettlement in foreign stock markets. With these in foreign stock markets. With these changes in conditions which had been aggravating the weakness in stocks the Diamonds

aggravating the weakness in stocks the bear element became more cautious. The belief that the bear party was becoming unduly numerous and cumbersome in the course of the active selling campaign and putting itself in a vulnerable position for a turn on them by the bulls added to this discretization of resistance. position of reserve. The result was seen in the decrease in the activity of the market and the disposition to take stocks at concessions to cover shorts.

The buying at concessions was obvious, although opinion varied as to the proportion due to short covering and to renewal of accumulation in the long interest. Whatever the source of the buying it was not accumulated. buying it was not aggressive and did not pursue an advance in prices, as seen in the dwindling activity or use market on railies and the sudden remarket on railies and the sudden relapse in prices at the last. Recent
predictions were fulfilled in the increase in the Chicago and Alton dividend, and Toledo. St. Louis and Western, as holder of control of Alton, advanced in company. Other minor
stocks continued to rise with repetition of rumors of favorable developments. The Wisconsin Central stocks
especially were affected by reports of
alleged negotiations for absorption by
the Canadian Pacific. The statement
of the agricultural exports for December made a good showing. Large additions to the engagements of gold for
export were accepted with undisturbed
equanimity in view of the unrufiled
ease of the money market and the continued influx of funds to the banks.
The remarks of the president-elect to
the Augusta Bar association, pointing
out the coming necessity for limitations upon the use of private property
when represented in combination with when represented in combination with capital, attracted a good deal of atten-tion. Bonds were irregular. Total sales, par value, \$5,032,000. United States bonds were unchanged on call.
